The Editorial was written before this Match Report and sadly we have the first match with less than full teams. Nevertheless, with almost every angler 'bagging up' it was a splendid day's fishing.

Tony Kirkham of Queen Mother reports that the day started with a light South Westerly wind and a dark overcast sky, but the forecast was for it to get bright and hot by 2.00 in the afternoon. The forecast was correct and as soon as the sun broke through the fish dropped lower in the water

With the fish up in the water in the morning the lines were an array from floaters to glass lines.

The boats split into 3 when leaving the pontoon, heading for Hook Straight, the dam and Bewl Straight.

One of the best drifts was from Ferry Point across to Chingley Bank with fish tight in to Ferry Point, right out to the middle, however there were fish everywhere.

In the morning, floaters or slow sinkers were the successful lines. Various combination of flies worked, although pulled lure types worked much better than nymphs.

One successful method was a booby/lure/booby combination. A Woofa Booby was very effective. So effective that Tony reported TWO double hook ups – and all four fish landed.
