

BEWL WATER FISHERY WEEKLY REPORT week ending:

31-May-18

Some excellent fishing over the last week, despite the hot weather during the Bank Holiday weekend. Both fly and any method anglers have been catching well. The trout are near the surface and spread out across the water. Rod average for the week, based on returns is 5.32. Water quality has been good with the lake full and clear.

Best areas for boat fishing have been The Main Bowl, Rosemary Lane and Hook Straight near the old cages. Bank angles have caught in front of the playground and Seven Pound Creek.

Successful flies have been Cormorants, Buzzers, Montanas and Cats' Whiskers. A further 1500 rainbows were stocked this week.

Saturdays and Sundays often see all of our boats going out so please remember to book weekend boats in advance. Submitting your catch return helps us know how the lake is fishing and also allows us to give more accurate information to anglers. Please submit your return after each visits - this can be done online, by phone (you can leave information on the answering service) or at the fishing shop.

Water temperature 19degC Water level 99%
