BEWL WATER FISHERY WEEKLY REPORT week ending: 26-Jul-18

The fishing has changed very little since last week. The hot spell has continued and the fishing is still difficult for fly and any method anglers. However, season ticket holder George Brown netted a superb rainbow weighing 5lb 2oz on a hopper from a boat in the main bowl.
Rod average for the week, based on returns, is 2.76.
A further 1900 rainbows were stocked this week.

The best area for fishing is still the Main Bowl.
Bank fishing is very challenging but should improve when the water cools down.

Best flies to try are Cormorants, Hoppers and Buzzers.

CATCH AND RELEASE IS STILL SUSPENDED FOR FLY ANGLERS DUE TO HIGH WATER TEMPERATURE.

Water temperature 23.5degC - Water level 84% - holding up well in the hot dry weather
