

**BEWL WATER FISHERY WEEKLY REPORT week ending:**

**12-Jul-18**

Mixed fortunes this week at Bewl. The any method anglers have been having more success than the fly anglers.

The trout are very deep in the Main Bowl and a fast sinking line is recommended for fly fishing. There is a small amount of algae in the water.

2000 rainbows were stocked this week.

Rod average for the week, based on returns is 5.50 but the number of returns is low - allo anglers are reminded that they must submit a return each visit.

The best areas for boats have been the Main Bowl where the 'Bubble' aerator is running, and Chingley. Bank fishing is still very challenging - the deeper water at Chingley is the best place to try. Successful flies have been Buzzers fished deep.

CATCH AND RELEASE WITH FLY FISHING IS STILL SUSPENDED DUE TO THE HIGH WATER TEMPERATURE.  
 Water temperature 23degC - Water level 90%
