

BEWL WATER FISHERY WEEKLY REPORT week ending:

05-Jul-18

The fishing was excellent up until Sunday . the fish were high in the water and many anglers were catching their 8 fish limits. The weather then became very hot and the "bubble" was turned off which slowed things but rod average for the week, based on returns, is still a very good 5.61.

However, with prolonged heat and the high water temperature, the fish will have gone deeper in to the cooler layers and it will probably be more challenging to catch them.

Best areas for boats are the Main Bowl and Bewl Straight.

Bank fishing is not easy due to the fishing going in to the deeper, cooler water. Chingley would be the best place to try.

Successful flies have been Hoppers, Cormorants and Damsels.

Water temperature 23degC Water level 92%

DUE TO THE HIGH WATER TEMPERATURE, CATCH AND RELEASE IS NOW SUSPENDED UNTIL FURTHER NOTICE .

Top 25 Fish of the Week					Statistics from Returns
