

**BEWL WATER FISHERY WEEKLY REPORT week ending:**

**16-Aug-18**

Another difficult week for fishing as the water struggles to cool down. Little has changed over the last few weeks. The trout can sometimes be seen near the surface but are still proving difficult to catch with the warm water. Rod average for the week is 1.00. Catch and release is still suspended.

There are plenty of trout in the water and they will show more when the water cools. Water levels remain high at 81%.

Best area for boat fishing has been the Main Bowl. Hook Straight is also worth a try. Bank fishing is very challenging as the fish have moved to the cooler, deeper water.

NO BOATS ARE AVAILABLE ON WEDNESDAY 19 SEPTEMBER WHEN THE ANNUAL GRAND MAX COMPETITION WILL BE TAKING PLACE.

Water temperature 21degC Water level 81%
