

BEWL WATER FISHERY WEEKLY REPORT week ending:

23-Aug-18

There were small signs of improvement towards the end of last week however the weather became warm and humid again which prevented the water from cooling. The water temperature has been hovering over 20degC and is still too warm for catch and release on fly fishing tickets to be reintroduced. Rod average based on returns is 0.26.

Water levels are holding up well and cooler weather is expected which will lower the temperature.

The best areas are the Main Bowl and near the dam.
Hoppers and Cormorants are the best flies to try.

The Annual Grand Max Fly Fishing Competition will be taking place on **Wednesday 19 September**. There may be a few boats available for FLY FISHING ONLY from 1000hrs but Any Method is not available on that day.

Water temperature 20degC Water level 80%

Top 25 Fish of the Week					Statistics from Returns							
lbs	ozs	Rainbow	Blue	Brown								
2	0	1			Total number of returns:	19
