

BEWL WATER FISHERY WEEKLY REPORT week ending:

30-Aug-18

Another difficult week for fishing at Bewl Water. However, the water is now cooling helped by the rain and much cooler nights. Rod average for the week, based on returns, is 0.30.

Water levels continue to fall but are still very good for this time in a dry summer.

With falling water temperature stocking can recommence from Monday 3rd September, and catch and release has been reinstated for fly fishing.

The best areas to try are the Main Bowl and the "bubble" which is running continuously.

Winner of the monthly draw for August is George Brown who wins a free motor boat for the day.

Water temperature 18degC Water level 77%

Top 25 Fish of the Week					Statistics from Returns
