

BEWL WATER FISHERY WEEKLY REPORT week ending:

11-Oct-18

The fishing has been quite challenging again this week, with some days better than others. On good days, some anglers have caught up to 5 trout. The recent, warm bright weather conditions haven't helped the fishing as the water has warmed up again from last week. Rod average for the week based on returns, is 1.23.

Most of the trout have been caught from boats in the Main Bowl or the north end of Bewl Straight, between Ferry Point and Chingley Point. The fish have remained high in the water.

Bank fishing is still challenging, but will hopefully improve as the water cools. Successful flies have been Cormorants, Buzzers and Boobies.

1800 trout were stocked on 11th with a further 3600 to go in during October.

Water temperature 17degC Water level 66.5%
