

BEWL WATER FISHERY WEEKLY REPORT week ending:

18-Oct-18

This week has seen a great improvement in the fishing at Bewl Water. Most anglers are catching and there were very few nil returns. Rod average, based on returns, was 2.45

The trout are very high in the water and fly anglers have been using floating or intermediate lines. 3600 rainbows have been stocked in the past 8 days, 1800 on Thursday 11 October and another 1800 on Wednesday 17 October.

Best areas for boat fishing have been Chingley, The Main Bowl and Bewl Straight up to Dunsters and Hatherells. Bank fishing is still difficult. The deeper water near the Dam and Chingley are the best places to try. Successful flies have been lures such as Minkies and Cat's Whiskers.

A REMINDER THAT WINTER PREDATOR FISHING STARTS ON NOVEMBER 1ST (BOATS ONLY).

Water temp 16degC

Water level 65%
