Water level	76%
Water temperature	22c

The last ten days have been the most demanding of the entire season for sport here at Bewl. Before last weekend, the water temperature was a very manageable 17c, so after a further 1800 Rainbows were stocked, we expected returns to be encouraging. Alas, the 3<sup>rd</sup> mini heatwave of the year saw our Trout all but disappear, and with water topping as high as 23c, it was hardly surprising to learn, that from the 34 returns, no less than seventeen were blanks!

Let's hope we've seen the last of the hot weather and angling can return to normal.
