The busy weekend of Easter saw in excess of 500 anglers enjoying the sunshine, but the fishing was a wee bit difficult. Some adapted to the conditions and recorded their 8 bag limit with ease, whilst others struggled. The trout were found at depths between 4 – 6 foot and rarely higher. Favoured flies were again buzzers with Damsels also finding success. A large Trout of 5lb 1oz was recorded by Mr A Crossley which is a season best so far.

Spinning anglers had moderate success. Again many limit bags were recorded, but sadly several blanks. The water temperature rose significantly and I'd expect after the midweek forecast of rain, that we will see a variety of hatches that may prompt the angler into seeking alternative flies. I'd expect the Cormorant to come into favour very soon.
