Water level	95%
Water temperature	15c

At long last, summer has arrived. Conditions in the last week have seen the water temperature rise to 15. Trout continue to feed on or very close to the surface with Orange blobs and boobies being a reliable lure. Damsels have also had moderate success, but I'm sure the Cormorant will prove to be the coming weeks 'must have' fly.

Several significant captures have been recorded in the last week, most notably a Rainbow of 6lbs caught by a visiting angler from Belgium. Also, a monster Pike of 12k (almost 27lbs) was caught near Dunster's on a tiny SV spoon. It took over an hour to land on sporting gear!

Those targeting Pike by spoon or by Pike Fly, are again asked to respect these fish, returning them to the water allowing sufficient rest. This sometimes takes several minutes, but will be well worth the patience if when recaptured it exceeds 20lbs!

Don't forget to sign up to our loyalty scheme next time you are in the lodge – hire 8 boats get one free.

We are relying on your catch returns to provide as accurate data as possible on the fishing conditions, don't forget that each month we will choose one return to win a free boat on a return visit, there are several ways to submit your return:

- By filling out your permit and posting it in the box by the lodge or passing it to one of the team.
