

Dogs at Bewl Water

Visitors are welcome to bring dogs to Bewl Water but are asked to abide by the following guidelines:

Dogs must be under control at all times. If they are obedient and will not interfere with wildlife or the enjoyment of other users then they may be exercised off the lead

Dogs must not be allowed to disturb wildlife

Dogs are allowed on the Round Reservoir walk but should be kept to heel or on the lead on the part of the route that passes through the Nature Reserve.

With the exception of Guide Dogs and Hearing Dogs, no dogs are allowed in the following areas:

- The Waterfront Café or other buildings;
- The grass slope and picnic area below The Waterfront Café;
- The children's playground; and
- The water users' areas and beach around The Boat House

Dogs must not be allowed to chase or disturb wildlife

Dogs must be kept out of the water at all times

Dog owners must prevent their animals from drinking water from the reservoir. Although green and blue green algae have been in water for millions of years, they can produce toxins that may be fatal to dogs when ingested

Dog excrement must be cleared immediately and removed from the site by the person responsible for the animal
