I'm Adam Smith and let me ask you, when was the last time you were fascinated by something?

Shocked that you couldn't figure out how or what just happened?

You blinked and something disappeared, blinked again and it returned; without even noticing that you're already grinning and asking yourself: "How?"

My clients find that having a magician as part of their entertainment is a great icebreaker, stimulates conversation and is incredibly versatile at any event.

If you are ready to turn your next event into a memorable occasion that leaves others amazed, please contact me for a quote!

Hello! I'm Helen and I'm a bit obsessed with weddings! I take beautiful, creative photographs that faithfully capture the story of your wedding day. But more than that, I create photographs that make people happy! Through my work, you'll be able to relive the romance, excitement, energy and happiness of your wedding day – not just for now but for many years to come.

I love beautiful light and people who love to laugh. It's my job to capture the full story of your day: the big moments as well as all the not-so-big in-between moments that matter just as much.

My style is relaxed, natural and authentic, and captures real moments as they unfold. I embrace natural light and bright colours with a soft, gentle and romantic edge.

Do you want a ceremony which is personal, written by a celebrant who will be with you every step of the way? If so, consider using one of us. We are a group of eleven Humanist celebrants, based in the South East. We have over 40 years experience between us and are part of a tradition of non-religious ceremonies that goes back nearly 150 years. Whether you want a calm and dignified ceremony in a beautiful indoor setting, or would rather be in the middle of an enchanting garden or woodland, we are the choice for you.
